

The idea of allowing cell phone use on airplanes is a bad one. It is annoying enough to have to listen to crying babies and general airplane noise...but having to listen to people babbling about their private business non-stop for an entire flight, or worse yet, having people on both sides of you talking at the same time...would be my idea of torture. I do not have a cell phone and I certainly do not want to be the victim of a cell phone addict while I am confined to a small space with no possibility of escape. This bill should be defeated and the idea should be squelched!!!!
